**Specific Permit Conditions****1 Definition**

"commodity" means Water supply and distribution system components Part 53: Drain cocks for hot-water storage containers;

"the holder's specification" means the specification issued by the holder covering the control, inspection and testing, where relevant, of material during manufacture, packaging, or storage;

"material" means (a) a component, an identifiable quantity of material, or a subassembly required for the manufacture or packaging of a commodity, or (b) a commodity at any stage of manufacture, testing, packaging, or storage, as relevant;

"purchaser's requirements" means requirements specified by the purchaser that affect a commodity without affecting its compliance with the specification;

"the specification" means standard SANS 1808-53:2012 including all such amendments as may be effected from time to time; and

"specified requirements" means the appropriate requirements given in the specification, or in the holder's specification, or the appropriate of the purchaser's requirements, as relevant.

"GPC" means the General Permit Conditions pertaining to Mark schemes

"Product Type" a manufacturers type designation as marked on the product or as required in the Standard.

"Product Family" a number of product types which are similar enough that the product characteristics shall not change significantly.

**2 General**

None.

**3 Product Families**

The following products shall be considered as Product families for sampling and testing: All product types and sizes as included within the product standard and as given in section 7.

**4 Pre-Permit Tests and Technical Documentation**

Pre-permit tests shall be conducted at SABS testing laboratories, or a competent testing authority acceptable to SABS Commercial SOC Ltd. or at any other testing laboratory in the presence of a competent representative of SABS Commercial SOC Ltd.

**SCHEDULE TO  
"PERMIT TO APPLY CERTIFICATION MARK"****Schedule 3**
